1-Account Number
This is your water account number and last 5 digits are helpful when calling regarding an inquiry on your bill.

2-Service Address
This is the actual location water is served.

3-Service Dates
These are the dates for which you are being billed. This is your current and last read dates with meter reads.

4-Usage History Graph
The blue bars indicates your monthly usage within the last 13 months. The light grey bar shows your 2013 current month usage less 20%. Your conservation goal! The dark grey bar indicates your 2013 12 month **average** usage less 20%.

5-Last payment
This is the last payment applied to your account.

6-Previous Balance
This is the amount owed/account balance when the bill was generated.

9-Meter Size
This is your water meter size in inches.

8-Readiness to Serve Charge
This charge reflects the fixed cost shared among all customers, including infrastructure, equipment repairs, maintenance, meter reading, billing costs based on the customer's water meter size.

7-Water Usage
The charge for actual amount for water used. One unit of water is equal to 100 cubic feet (CCF), or 748 gallons of water.
